

Soil Testing

Balance your soil *organically and sustainably* in order to grow healthy, nutrient-rich food!

Cost: \$45 includes soil test, shipping and organic amendment recommendations. Reports will be e-mailed to you upon completion. Test will typically take 2-3 weeks to complete.

Instructions for collecting samples

1. Scrape away surface litter and dig down 6" to collect the sample. Use an auger, a soil sampling tube, or a spade. Just make sure whatever tool you use that you clean it before you take the sample.
2. Take samples from multiple different locations of your garden area.
3. Samples can be mixed together. Place 2 cups of sample into a ziplock bag.
4. Put your name on the bag with permanent marker. If submitting more than one sample, put a sample ID on each bag. (ie, upper garden area, pasture, herb bed, etc)
5. Fill out the form below and drop the form, payment of \$45 and soil sample(s) at the shed.

Soil Test Form

Please fill out the form below. Use a "Sample ID" if more than one sample. You can optionally add the "Area Size" if you want precise amendment recommendations for that area, otherwise the recommendations will be based on 1000 sq'.

Date: _____

Name: _____

Email: _____

Sample ID: _____ Area Size: _____ sq'

Sample ID: _____ Area Size: _____ sq'

Sample ID: _____ Area Size: _____ sq'

Sample ID: _____ Area Size: _____ sq'

Sample ID: _____ Area Size: _____ sq'

Cash or check is included. \$45 per test (please use an envelope)
